MEDICARE PART B SUPPLIER STANDARDS

Medicare regulations have defined standards that a supplier must meet to receive and maintain a supplier number. These standards, listed below, can be found on the NSC web site (www.PalmettoGBA.com, under “Other Medicare Providers”) or requested from the NSC Service Center Line at (866) 238-9652. The list below is an abbreviated version of the standards every Medicare DMEPOS supplier must meet in order to obtain and retain billing privileges. These standards, in their entirety, are listed in 42 C.F.R. pt. 424, sec 424.57 (c).

1. A supplier must be in compliance with all applicable federal and state licensure and regulatory requirements.
2. A supplier must provide complete and accurate information on the DMEPOS supplier application. Any changes to this information must be reported to the National Supplier Clearinghouse within thirty (30) days.
3. An authorized individual (one whose signature is binding) must sign the application for billing privileges.
4. A supplier must fill orders from its own inventory, or contract with others for the purchase of items necessary to fill the order. A supplier may not contract with any entity that is currently excluded from any federal or state health care program.
5. A supplier must advise beneficiaries that they may rent or purchase inexpensive or routinely purchased durable medical equipment, and of the purchase option for capped rental equipment.
6. A supplier must notify beneficiaries of warranty coverage, honor all warranties under applicable law, and repair or replace free of charge Medicare covered items that are under warranty.
7. A supplier must maintain a physical facility on an appropriate site.
8. A supplier must permit CMS or its agents to conduct on-site inspections to ascertain the supplier's compliance with these standards. The supplier location must be accessible to beneficiaries during reasonable business hours, maintain a visible sign, and post hours of operation.
9. A supplier must maintain a primary business telephone listed under the name of the business in a local directory or a toll free number available through directory assistance. The exclusive use of a beeper, answering machine or cell phone is prohibited.
10. A supplier must have comprehensive liability insurance of at least \$300,000 that covers both the supplier's place of business and all customers and employees of the supplier. If the supplier manufactures its own items, this insurance must also cover product liability and completed operations.
11. A supplier must agree not to initiate telephone contact with beneficiaries, with a few exceptions allowed. This standard prohibits suppliers from calling beneficiaries in order to solicit new business.
12. A supplier is responsible for delivery, proof of delivery and must instruct beneficiaries on use of Medicare covered items.
13. A supplier must answer questions and respond to complaints of beneficiaries, and maintain documentation of such contacts.
14. A supplier must maintain and replace at no charge or repair directly, or through a service contract with another company, Medicare-covered items it has rented to beneficiaries.
15. A supplier must accept returns of substandard (less than full quality for the particular item) or unsuitable items (inappropriate for the beneficiary at the time it was fitted and rented or sold) from beneficiaries.
16. A supplier must disclose these supplier standards to each beneficiary to whom it supplies a Medicare-covered item.
17. A supplier must disclose to the government any person having ownership, financial, or control interest in the supplier.
18. A supplier must not convey, reassign, sell or allow another entity to use its Medicare billing number.
19. A supplier must have a complaint resolution protocol to address beneficiary complaints related to these standards. A record of complaints must be maintained at the facility.
20. Complaint records must include: name, address, telephone number and health insurance claim number of the beneficiary, a summary of the complaint, and actions taken to resolve it.
21. A supplier must agree to furnish CMS any information required by the Medicare statute and implementing regulations.
