

Accredo[®] Specialty Pharmacy

Specialty therapy
workflow support

Eliminating administrative friction to help patients start sleep disorder therapy faster.

We help simplify specialty therapy coordination so your practice can spend less time managing administrative tasks and more time caring for patients. From prescription intake through therapy initiation, Accredo coordinates key access steps, keeps your office informed, and supports patients through onboarding.

How we simplify specialty therapy access

Supporting complex sleep therapies

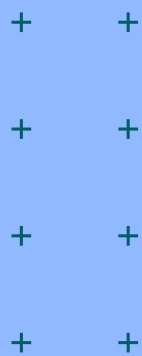

Preparing patients for therapy

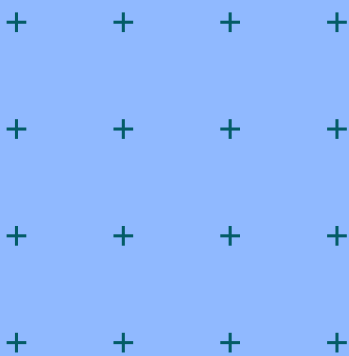

Keeping your practice informed

Stage	Referral and access	Clinical review and therapy preparation	Therapy initiation and ongoing support
Prescriber/practice action	Submit prescription for specialty sleep therapy	Prepare patient for therapy initiation and receive proactive status updates	Upon receipt of therapy confirmation, maintain visibility into patient progress
Accredo support	+ Verify benefits and financial assistance eligibility + Collaborative PA team initiates and facilitates prior authorization for sleep therapies and coordinates with providers and payers	+ Clinical assessment for specialty therapy and pharmacist verification + Medication shipment coordination	+ Medication delivery and billing coordination + Continued patient adherence and refill support
Patient impact	Receives prescription confirmation and online support via the Accredo website or app upon registration	Receives Accredo patient onboarding and education about therapy expectations	Receives medication and begins specialty therapy support, including refill reminders and digital tools

Collaborative prior authorization support for specialty sleep therapies

Through prescriber enrollment, Accredo helps coordinate prior authorization for sleep therapies by working with your practice and payers throughout the process. We proactively follow up, provide timely status updates, and help **reduce administrative burden** while improving visibility from submission through determination.

How your practice benefits

Faster access to sleep therapy

A coordinated access process helps reduce specialty prescribing delays so eligible patients can begin therapy sooner.

Less administrative lift for your team

Accredo coordinates key access activities—from benefits verification and collaborative PA support to patient outreach and status updates—to reduce back-and-forth for your office.

Support throughout the specialty therapy journey

Accredo provides clinical support and patient engagement to keep patients informed and give your practice greater visibility into their progress.
