

# Accredo is now on iAssist!

This all-in-one digital solution simplifies and expedites the submission of electronic prescriptions and prior authorizations (PAs), as well as enrollments into Accredo specialty pharmacy support programs and/or manufacturer support programs.

## iAssist is free, intuitive, doesn't require any downloadable software and features the following capabilities:

e-Prescribe directly to Accredo specialty pharmacy (4436920)

Capture patient e-Consent

Capture and store prescriber e-Signature for enrollment forms

Real-time pharmacy benefit investigation, including OOP cost, access restrictions and fill options

Complete and submit real-time e-PAs

Immediate financial assistance and support program enrollment (if applicable)

## How to Get Started with Accredo through iAssist:

- 1 Register on iAssist.com**  
Visit MyAccredoPatients' Resources page and select iAssist to be taken to the iAssist login page (pictured here)
- 2 Add users to the registered account**  
Add users such as prescribers\*, nurses and members of your staff to the registered account  
\*To protect patients and providers, an active prescriber must be tied to the account. Prescriber activation requires name, home address, date of birth, last 4 of SSN
- 3 Add new patients to the practice account**  
On your dashboard, click Start Submission to add a new patient
- 4 Begin prescribing**  
Search for and select the appropriate medication, and search for and select Accredo as the desired SP to receive the e-prescription

# Features That Matter Most to Your Office

## Patient e-Consent

- e-Consent can be captured in and out of the office
  - > In office: ability to save the submission as a draft or continue to the next panel
  - > Out of office: ability to email patients a link to HIPAAConsent.com

## Real-time Pharmacy Benefits

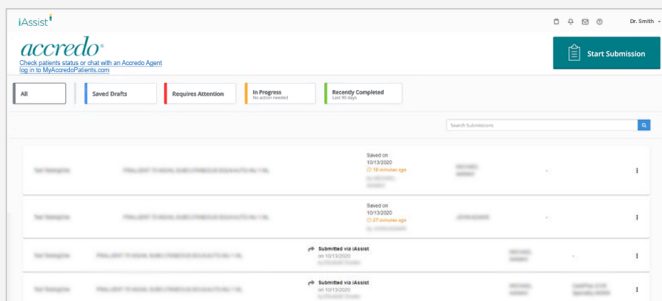

- Using five patient identifiers, patient benefits are pulled in less than 30 seconds
  - > Results include patient coverage, patient out-of-pocket cost, PA and step edit requirements, coverage alerts and fill options

## e-Prescription

- Features patient's pharmacy insurance data search
- Hub enrollment form is built into the workflow
- Full e-Prescription package sent directly to Accredo

## Real-time e-PA

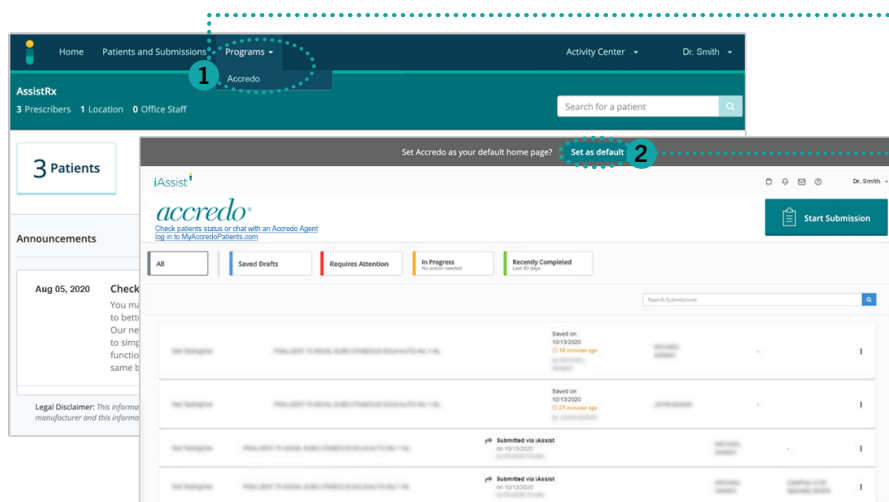

- e-PA specific to patient, payer and therapy is digitally generated in the workflow
  - > Only relevant questions and response options are populated
  - > Includes upload functionality for supporting clinical documents
- Accredo will coordinate with the payer/PBM for approval

## How to Check Patient Statuses

To check patients status, including referrals, renewals and shipments, log in to MyAccredoPatients.com by clicking the hyperlink on the left side of your iAssist dashboard. You can also chat live with an Accredo agent and address any issues without a phone call. If you aren't yet registered for the Accredo prescriber portal, click "register now" on MyAccredoPatients.com.

## How to Set Accredo as Default Home Page

- 1 Click on the Programs tab and select Accredo from the dropdown
- 2 Click Set as Default at the top of the page
